

SAP PM Online Training Course Content :

SAP Overview

- my SAP Business Suite
- Navigation (system handling)
- Plant Maintenance Overview

PM Organizational Structure

- Planning Plant
- Maintenance Plant
- Planner Groups

Master Data

- Material Master
- Functional Location
- Equipment
- Equipment BOM
- Equipment Task list
- Work center
- Measuring Point and Measuring counter

Maintenance Processing - Planning

- Breakdown and Corrective Maintenance
- Creation of Maintenance Notification
- Release of Maintenance Notification
- Maintenance Order creation from Notification
- Material Requirement Planning.
- Purchase Order creation for Maintenance Materials

Maintenance Processing - Execution

- Maintenance Order Release
- Goods issue for Maintenance Order
- Confirmation of Maintenance Order
- Closing of Maintenance Order
- Creation of Measuring Document

Preventive Maintenance

- Maintenance Strategy
- Time based strategy Plan
- Performance based strategy Plan
- Condition based Maintenance

- Creation of Maintenance Plan
- Scheduling of Maintenance Plan
- Preventive Maintenance Order execution
- Dead line Monitoring

Refurbishment of Spare Parts

- Spare Parts
- Refurbishment of spare parts Processing

Inspection of measuring equipment

- Integration with Quality Management
- Calibration inspection

Various Reports in PM module

- Functional Location Reports
- Equipments Reports
- Maintenance Order Reports
- Other Reports

Important Configuration and Integration with other modules

- Configuration steps involved in PM
- PM integration with MM, PP, QM and FI/CO modules
